FINANCE AND SUPPLY CHAIN GRADUATE

Finance and supply chain graduate who builds practical business tools

BBA from BRAC University. I have worked in accounts on Oracle ERP, managed inventory across a two country Shopify store, and built PROBAHO, a free retail system that keeps showrooms selling when the internet drops.

2 corporate roles • 1 tool released • 3 case projects

BBA, BRAC University. Major in Finance, minor in Supply Chain Management. 2022 to 2026.

SELECTED WORK

Work and Research

Practical software tools for business operations, and quantitative finance case projects.

Tools I built

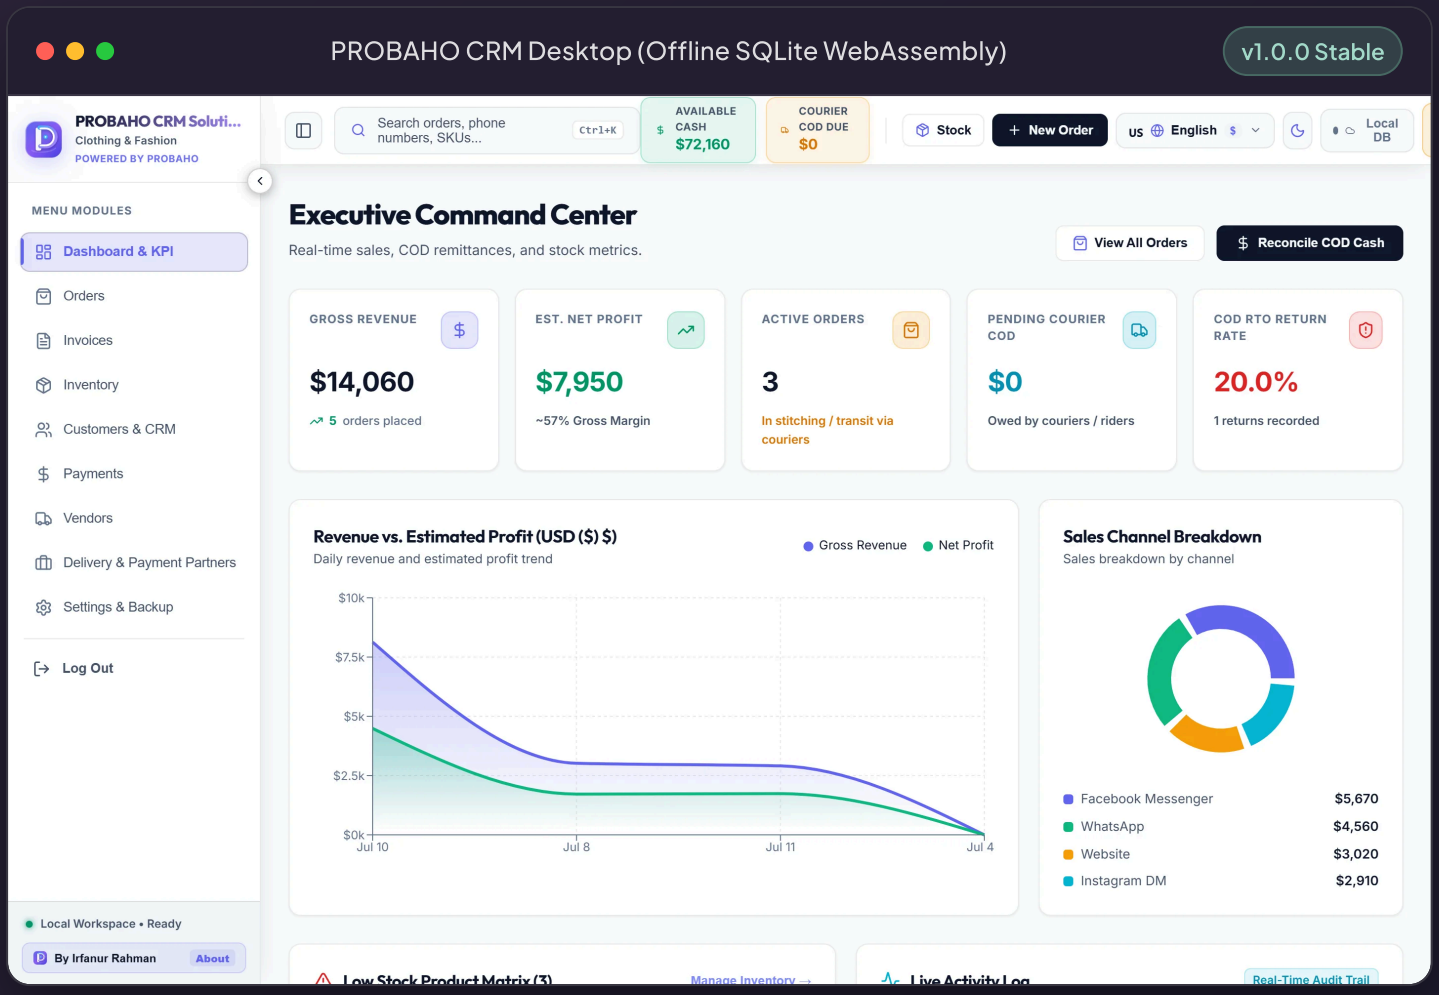

V1.0.0 RELEASED

Free and open source

PROBAHO CRM Solutions

Desktop business system for retail showrooms and distributors

Built with AI tools. I designed the product, defined the features, tested and released it.

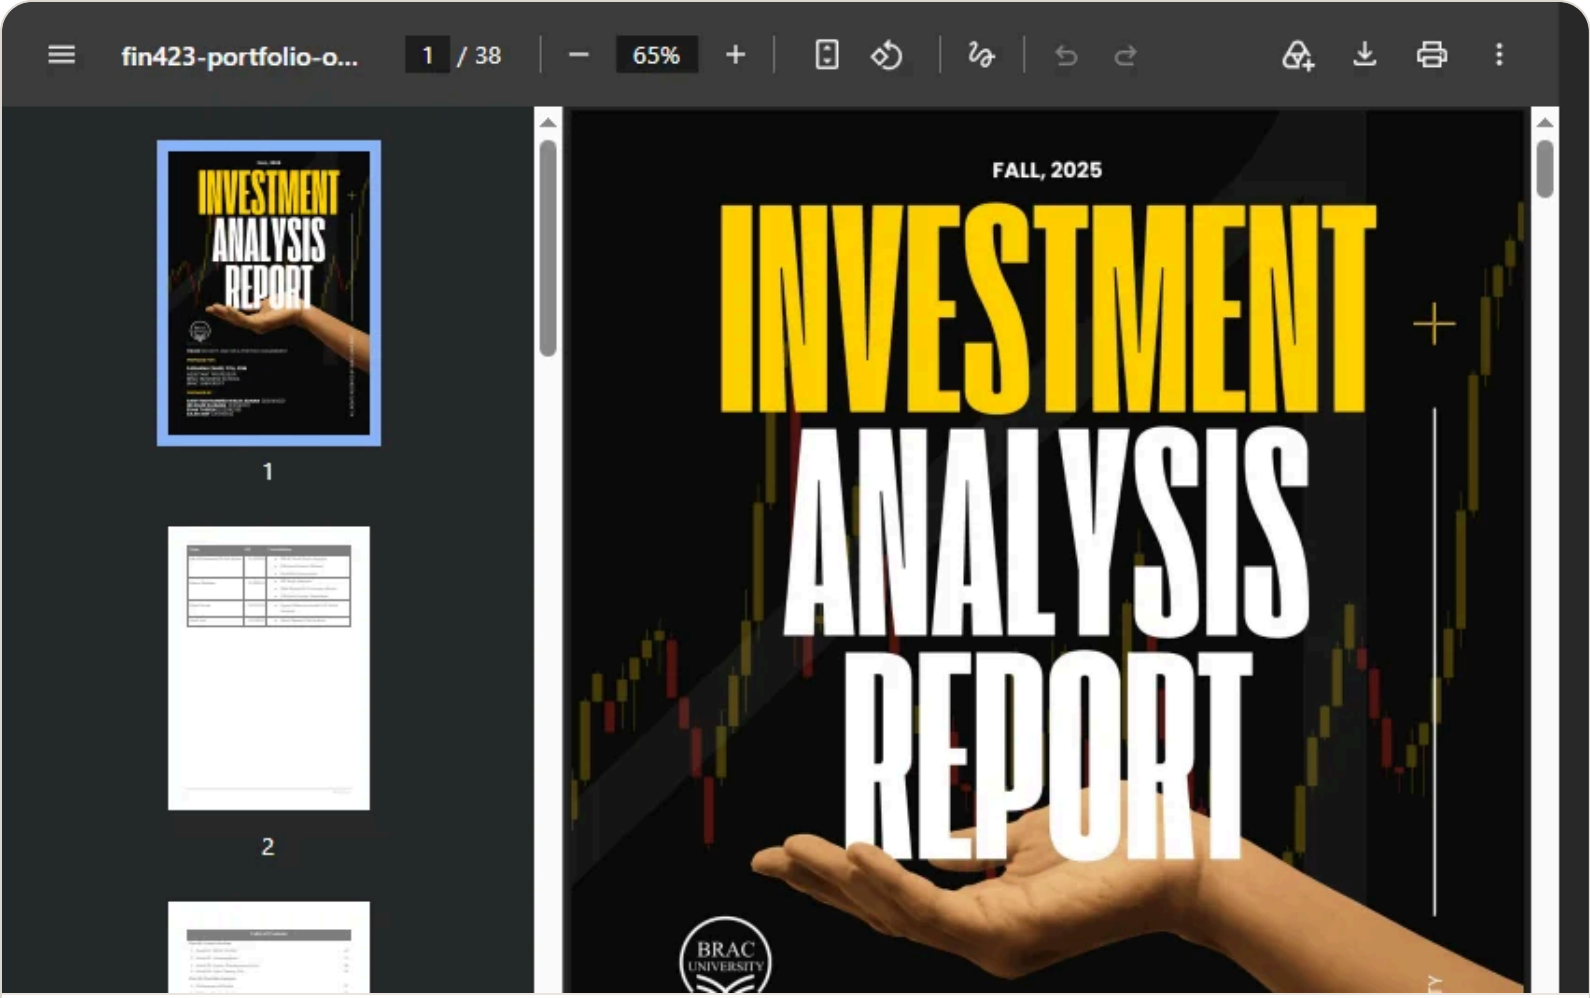

Electron | React | TypeScript | SQLite WebAssembly | Offline first | Courier delivery profiles

A free desktop business system for retail showrooms and distributors that keeps billing and inventory records working when the internet drops. Built with local SQLite WebAssembly storage, automatic update checking, and courier delivery management.

- Keeps billing and inventory working when the internet is down
- Records who created and last edited each record
- Built in courier profiles for Pathao, Steadfast, RedX, Paperfly, Sundarban and eCourier
- Local backup export with single file database persistence

- v1.0.0 released

Case work and research

FIN423: Investment Theory, 2025

Team project

Portfolio Optimization and Efficient Frontier Simulation

> **My role:** Lead analyst for Grameenphone valuation, covariance matrix formulation, and 34 portfolio efficient frontier simulation.

Evaluated risk, return and covariance relationships across four Dhaka Stock Exchange equities over 250 trading days.

Simulated 34 portfolio weight combinations to construct the Markowitz efficient frontier and identify the optimal Sharpe ratio allocation.

CAREER HISTORY

Corporate Experience

Corporate accounting, ERP systems, and international ecommerce inventory management.

FMCG

Feb 2026 to May 2026

Accounts and Finance Intern

Square Toiletries Ltd • Dhaka, Bangladesh

Corporate accounting at Square Toiletries Ltd, supporting general ledger maintenance, reconciliation workflows, and financial analysis.

- Posted daily transaction vouchers and maintained journal entries across commercial accounts in Oracle ERP.
- Reconciled commercial bank statements with general ledger balances, investigated variances, and resolved discrepancies.
- Built financial schedules, depreciation models, and variance sheets in Excel to support monthly accounts closing.
- Monitored cash outflows and verified vendor invoices against delivery records to assist working capital management.

Oracle ERP | General Ledger | Bank Reconciliation | Variance Analysis | Advanced Excel | Working Capital

ECOMMERCE

Feb 2025 to Sep 2025

Ecommerce Executive and Logistics Lead

Strides Co Ltd • Dhaka and North America

Digital storefront operations and cross border supply chain coordination between Bangladesh production and North American distribution.

- Managed the direct to consumer North American storefront on Shopify, setting up currency conversion, payment gateways, and checkout settings.
- Tracked inventory balances and safety stock levels between Bangladesh production and United States storage to prevent stockouts.
- Updated product listings, descriptions, and category tags to improve search visibility and help buyers find items.
- Monitored international shipping milestones and created product promotional graphics in Canva.

Shopify USA | Cross Border Logistics | Inventory Tracking | Supply Chain Sync | Organic SEO | Canva

PROFESSIONAL CAPABILITIES
